

Jonathan Cana, RA, LEED AP BD+C

RESIDENTIAL DIRECTOR

Jonathan has more than 22 years of diversified international experience in the field of architecture and interior design. As a seasoned senior project manager, Jonathan is able to capture, document and adeptly map the details of a project to ensure objectives, timelines and budgets are met. Through leadership expertise, he drives the project successfully through each step of the process, from imagined to completion, working closely with the client and our collaborative team of designers and consultants.

His competency and skillset involve all aspects of architecture from design conceptualization, hand drawn perspective rendering, computer-generated production of construction documents, project management and coordination, up to the final project close-out.

Jonathan's architecture portfolio:

- Depth of experience in multi-family housing of both new construction and substantial rehabilitation projects total more than 1,500 residential units
- A wide array of institutional and commercial projects, office tenant build-outs, retail shops and restaurant experience, all of which strengthen and help support smart planning and design of mixed-use development
